WH OH75

Item no.: 5866

Outdoor wall mount, display specific for Samsung OH75 series

The WH OH75 is a highly weather proof outdoor wall mount, which was developed specifically for the Samsung OH75 outdoor screen series.

The Samsung OH screens are already water proof and dust proof according to the IP56 standard and can be used in an ambient temperature range from -30 °C to +50 °C. In addition, the display front consists of 5 mm thick, robust protective glass, which has been certified with IK-10 (IK = European impact resistance level).

The screen mount is display specific. It can be mounted in portrait or landscape orientation.

The surface of the wall mount is finished with a highly weather proof, corrosion resistant plastic powder coating in black (RAL 9005).

Note: Installations in the immediate vicinity of the coast or in particularly corrosive environments may require enhanced corrosion protection. Please contact us to discuss a suitable design.
