

Cable Floor-to-Ceiling Flat Panel Mount **SKU: FCS1U**

The FCS1U provides an ultra-low profile mounting solution perfect for retail storefronts. It supports both portrait and landscape orientations in a single SKU, with the option to retrofit a second, back-to-back display with the PACFCB accessory.

Post-installation pitch alignment keeps the display from tilting without having to over-tighten the cables.

Works well in areas that are hard to support with traditional mounts.

- Switch from portrait to landscape orientation easily
- Post installation adjustable pitch alignment
- Accessories for back to back flat panels and lateral adjustment
- Can accommodate up to 15 ft (4.57 m) distance between floor and ceiling
- Support display(s) up to 130 lbs (58.96 kg)
- Typical Minimum Display Size: 49 inches (portrait) and 55 inches (landscape)
