ThinkSmart Cam

AN ENTERPRISE-GRADE AI SMART CAMERA DESIGNED WITH COLLABORATION CONFERENCE VIDEO IN MIND

When paired with a compute, such as ThinkSmart Hub or ThinkSmart Edition Tiny, or when used alone as a standard plug-and-play device, the new ThinkSmart Cam creates immersive, productive spaces where everyone feels as if they are in the same room. Its high-resolution and wide field-of-view, coupled with smart features, like auto-framing, auto-zoom, and whiteboard awareness, make ThinkSmart Cam the smart choice for easily and efficiently connecting today's workforces in the office and beyond.

conference ready

- Wide field of view captures everyone in the room
- High resolution and frame rates eliminate lag and distortion
- High Dynamic Range delivers higher contrast, vivid colors, and brighter images in low-light
- Ideal for home offices and huddle rooms as well as medium and large collaboration spaces

intelligent features*

- Auto-zoom and auto-framing create a more natural collaboration conference experience
- Active speaker tracking keeps conversations focused on the person talking
- Whiteboard awareness enables interactivity for more productive and collaborative meetings
- People counting generates ongoing room usage data for facilities and IT teams

seamless integration

- Compact, lightweight design can be set up as a standalone device or mounted to a wall or TV
- Certified compatibility with Microsoft Teams Rooms and Zoom Rooms
- Can be centrally managed and customized to meet the needs of users or room using ThinkSmart Manager or a ThinkSmart Cam configuration app available through ThinkSmart Manager

*AI features are controlled via ThinkSmart Manager, which is available with the purchase of a ThinkSmart compute, such as ThinkSmart Hub or ThinkSmart Edition Tiny. When used as a standalone device, a configuration app is available via download in ThinkSmart Manager. A ThinkSmart compute is not required to set up a ThinkSmart Manager account. Whiteboard awareness will be available at ship support. People counting will be available in Spring 2021 (v2.0) with ThinkSmart Manager.

THINKSMART CAM SPECIFICATIONS

field of view

100° Horizontal FoV
68° Vertical FoV
125° Diagonal FoV

aspect ratio

16:9

support resolutions

USB 3.2 Gen 1 Cable:
4K at 30fps, 1080p at 60/30fps, 720p at 60/30fps, 360p at 60/30fps

USB 2.0 Cable:
1080p at 30fps, 720p at 30fps, 360p at 30fps

image output format
MPEG, H.264, YUV

mounting

Standalone (tabletop)
Wall and TV mounting options

certifications

Microsoft Teams Rooms
Zoom Rooms

ThinkSmart Hub Single Cable

6ft / 2m
